

Focus Attention

Soothing the Mind

Millions of children and adults alike suffer from overstimulated and undernourished brains. Mental undernourishment can affect the entire nervous system as the body tries to compensate for missing nutrients. Even normal tasks can become difficult.

Mental malnutrition or imbalance is often lumped under the name Attention Deficit Disorder (ADD). When hyperactivity is involved, it's called Attention Deficit/Hyperactivity Disorder (ADHD). Thankfully, Nature's Sunshine has teamed up with Mother Nature to develop Focus Attention.

BENEFITS

Focus Attention provides important nutrients for normal brain-stimulation levels. In addition, it helps modulate brain activity and energy levels. It also supports blood circulation and neurotransmitters in the brain.

HOW IT WORKS

Nature's Sunshine Focus Attention is a special formulation of herbal nutrients that help protect the body from undesirable side effects caused by drugs or exposure to toxic chemicals, food additives, pesticides, etc. Focus Attention combines powerful nutrients required for quiet, balanced mental activity. By supporting the body with a wide range of high-quality nutrients, balance and function may be restored.

As an added benefit, other body systems reacting to mental stress are often relieved as the brain receives needed nutrients.

INGREDIENTS

- *Melissa officinalis* has been approved by the famous German Commission E for its ability to soothe the nervous system.
- *Ginkgo biloba* is well known for its support of brain and circulatory health.
- DMAE (dimethylaminoethanol) is a biodynamic nutrient used for memory and learning enhancement. It also quenches damaging free radicals.
- Slippery Elm aids nutrient absorption and is used as a soothing and cleansing herb for the digestive system.

- L-Glutamine is an amino acid that supports healthy brain activity and mental ability.

- Grape seed extract is high in proanthocyanidins—highly active compounds that can readily neutralize brain-damaging free radicals caused by toxins or overstimulated brain metabolism.

NSP ADVANTAGE

- Soothes the brain nutritionally without using harsh chemicals.
- Provides vital nutrients to enhance learning and memory.
- Contains several powerful antioxidants to quench damaging free radicals.
- Includes Melissa, making this a unique formula for soothing both the nervous and circulatory systems—of prime importance for proper brain function.

RECOMMENDED USE

Take 2 capsules twice daily with meals, or as needed. Children age 6–12: take 1 capsule twice daily with meals. For optimum utilization, take this product with NSP Flax Seed Oil (Stock No. 1770-3).

COMPLEMENTARY PRODUCTS

Focus Attention

Calma mental

Millones de niños y adultos sufren de estímulo mental excesivo y de desnutrición cerebral, lo que puede ocasionar desequilibrio en todo el sistema nervioso ya que el cuerpo procura compensar la carencia de nutrimentos. Esto ocasiona que aún las tareas normales sean difíciles.

La desnutrición o el desequilibrio cerebral pueden agruparse bajo el nombre de Attention Deficit Disorder (ADD) y cuando además hay hiperactividad se le llama Attention Deficit Hyperactivity Disorder (ADHD). Para hacer frente a estos problemas, Nature's Sunshine ha desarrollado 'Focus Attention'.

BENEFICIOS

'Focus Attention' proporciona nutrimentos vitales para mantener niveles normales de estímulo y de energía en el cerebro.

CÓMO FUNCIONA

Focus Attention es una fórmula de nutrimentos herbáceos que protege contra los efectos secundarios causados por la exposición a sustancias químicas tóxicas. Focus Attention combina una serie de nutrimentos poderosos necesarios para calmar y equilibrar la actividad mental y restaurar su funcionamiento y equilibrio normales. Como beneficio adicional, los otros sistemas que reaccionan al estrés mental se pueden estabilizar a medida que el cerebro recibe los nutrimentos necesarios.

INGREDIENTES

- Melissa officinalis, aprobada por la famosa 'Comisión Alemana E', por su habilidad de calmar el sistema nervioso.
- Ginkgo biloba, reconocida por su apoyo a la salud cerebral y del sistema circulatorio.
- DMAE (dimetilaminoetanol), un nutrimento bio-dinámico usado para mejorar la memoria y el aprendizaje y que neutraliza los radicales libres.
- Olmo americano, ayuda a la absorción de nutrimentos y se usa como hierba calmante y limpiadora del sistema digestivo.
- L-Glutamine es un aminoácido que ayuda a disminuir la hiperactividad del cerebro, aumentando la capacidad mental.

- Extracto de semilla de uva, con alto contenido de proantocianidinas, puede neutralizar los efectos de los radicales libres, apoyando la salud de las células cerebrales.

LA VENTAJA DE NSP

- Calma el cerebro nutritivamente, sin usar sustancias químicas nocivas.
- Proporciona nutrimentos vitales para la mejora del aprendizaje y la memoria.
- Contiene poderosos antioxidantes que neutralizan los dañinos radicales libres.
- Incluye Melissa officinalis, haciendo de ésta una fórmula exclusiva para calmar los sistemas nervioso y circulatorio. Esto es de primordial importancia para el adecuado funcionamiento cerebral.

USO RECOMENDADO

Tome 2 cápsulas dos veces al día con los alimentos o cuando sea necesario. Niños de 6 a 12 años: 1 cápsula dos veces al día, con los alimentos. Para mejores resultados, usar con Flax Seed Oil de NSP (No. de stock 1770-3).
